

**Government of Rajasthan  
Department of Forest  
Secretariat  
Jaipur**

D. O. No. F. 4(63) Forest/07-pt  
Jaipur, dated 24.5.08

I would like to draw your personal attention towards a project proposal for water supply to the Keoladeo National Park, Bharatpur. The State Government has prepared a project of Rs. 65 Crore for the supply of 350 MCFt of water to the Park by diverting and lifting flood waters of Yamuna in order to restore this wetland for the migratory birds which come from different parts of the world during winters. The wetland has been facing acute water shortage for the last few years due to successive droughts and receding water table. The project covers diversion of water during monsoon through underground pipeline with lifting arrangements for a length of 16.20 km from off-take point of Goverdhan drain near Santruk village.

The project has been approved by the state level steering committee for CAMPA under the Chairmanship of Chief Secretary. It is requested that the Central Empowered Committee may kindly provide funds from CAMPA, so that the project is taken up for execution as early as possible. A copy of the project, certificate of feasibility and the minutes of the state level steering committee approving the project for sanctioning under CAMPA fund is enclosed herewith for your convenience.

I would like to request you kindly to sanction the required amount for this project at the earliest.

Yours sincerely

Sri Jaikrishanan  
Chairman  
Central Empowered Committee  
Chanakya Bhawan  
Vinay Marg, New Delhi

(Prem Singh Mehra)

Copy to the following for information and necessary action :

- [1] PCCF and CWLW, Van Bhawan, Rajasthan, Jaipur
